Preliminary Amendment

Dear Sir or Madam:

Please amend the above-identified application as follows:

In the Specification: A substitute specification and "Version with Markings to show Changes Made" is included herewith.

In the Claims:

Please cancel claims 1-31 of the Annexes and substitute the following new claims 32-66.

32. An automation system (1), comprising at least
 a bus (2),
 I/O bus subscribers (31-38) connected to the bus (2),
 a standard control device (4; 40, 41),
 at least one safety analyzer (5, 5', 5'') which monitors data flow via the bus system and is
 designed to carry out at least one safety-related function,
 wherein the safety analyzer is at least one of set up for checking and processing safety-
 related data in a bus datastream and having a device for manipulating the datastream transmitted
 on the bus (2).
